

Choosing The Right Lubricant Partner

for the Gas Plant, Pipeline and Power Generation industries

SOLUTIONS Where You Need Them

Having the right products to choose from is one thing. Ensuring they get there when you need them is another. We deliver on both.

A WORLD-CLASS DISTRIBUTION NETWORK you can count on.

80+ COUNTRIES served around the world.

350+ PREMIUM LUBRICANTS, specialty fluids and greases produced including a full suite of products for the Gas Plant, Pipeline and Power Generation industries.

EXPERIENCE To Guide You

Our Gas Plant, Pipeline and Power Generation industry know-how can help you find ways to increase productivity and cut operating costs – and that goes a long way.

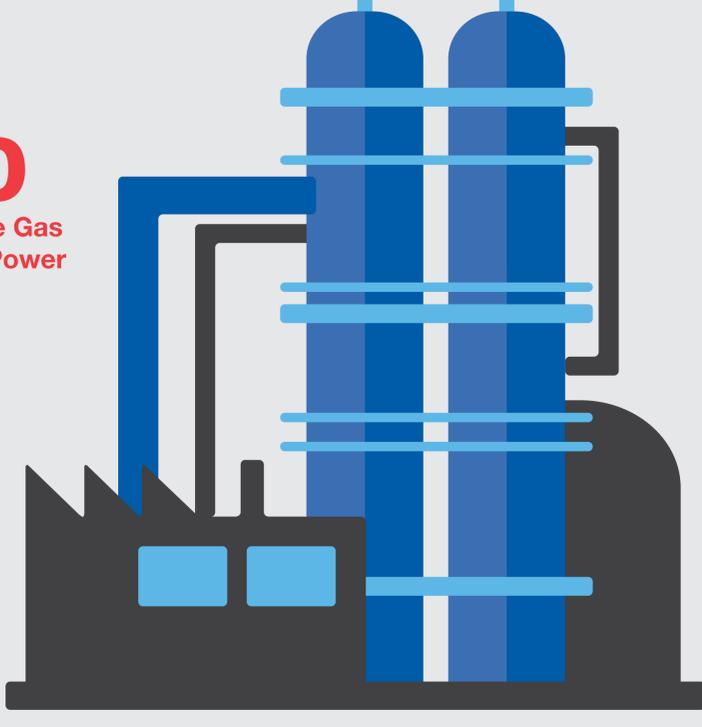

11%

Overall growth in the Gas Plant, Pipeline and Power Generation markets since 2013 including

37% growth in Europe.

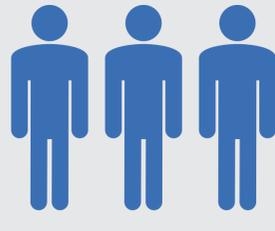

800+

Years of combined technical service expertise providing knowledgeable recommendations.

40+

OEM approvals on our Gas Plant, Pipeline and Power Generation products giving you added confidence.

1,400+

Satisfied customers and growing every year.

RESULTS You Can Expect

With over 20 Gas Plant, Pipeline and Power Generation products, we offer a comprehensive range to meet your toughest requirements and then some.

99.9% Pure Base Oils

We start pure so you can finish strong. Using our **HT Purity Process** we remove the impurities that can lead to premature wear, so our Gas Plant, Pipeline and Power Generation products can deliver optimal performance.

up to **300%**

Longer drain intervals¹
SENTRON™ LD 8000 Stationary Gas Engine Oil keeps your engine running longer.

\$700,000

Savings over 5 years²
The results of a recent field trial using a TURBOFLO™ LV prototype, our premium varnish-preventing turbine fluid.

up to **2x**

Better oxidation stability¹
LUMINOL™ TRi Transformer Fluid resists breakdown longer, resulting in fewer top-ups.

up to **2x**

Longer filter life³
Fewer filter change-outs mean HARNEX™ 320 Wind Turbine Gear Oil can reduce your downtime.

You've got our numbers. Now find out how we can improve yours.
